How to Save an iMovie as mp4 from an iPhone or iPad

- **Step 1**:
  - Get your movie to a desktop
  - Save to your Photos
  - Save to Google Drive OR
  - Hook up your phone to a computer and save the video to the desktop
- **Step 2**:
  - Go to http://video.online-convert.com/convert-to-mp4
- **Step 3**:
  - Upload your video by pressing the button under where the site says **Upload your video you want to convert to MP4.**
- **Step 4:**
  - Scroll down and click CONVERT FILE
- **Step 5:**
  - Wait patiently as your file converts.
- **Step 6:**
  - Once the screen has indicated that your file is complete, it can be found in your DOWNLOADS folder on your computer.
- **Step 7:**
  - If you are at a computer that is not at school, you will need to save your video to a flash drive or Google Drive or a cloud or whatever way you can save it to get it to a school computer.
- **Step 8:**
  - Save to your Genius Hour folder at school.
- **Step 9:**
  - Relax! You're one step closer to finishing your Genius Hour project for the year!
